

**REVISIONIST PERSPECTIVE ON THE
GNOSTIC CREATOR GODDESS SOPHIA
& THE SPIRITUAL DESTINY OF THE HIGHLY EVOLVED**

By Paul “Avadar” Richard (8-27-26)

How can consciousness, much less a Universe, emerge from nothingness?

The problem with the phrasing of this age-old question is the assumption that there is nothing beyond the parameters of linear time.

Linear time is how consciousness experiences reality. When in the Spirit World, the perception of time varies but it continues on regardless.

Within the parameters of linear time and beyond it there exists a non-living higher power.

The Infinite Light...

Constituting an endless reservoir of transcendent source energy. The power source behind all matter creation, energy healing, and telekinesis. This is the same Light that many near-death experiencers have reported seeing “at the end of the tunnel.”

Confirmed by near-death experience (NDE) research, this higher power judges all after death. We are all forced to directly and emotionally experience our impact on others – good, bad, and indifferent. Whereby

cruelty is punished and kindness is rewarded. Why it is so important to strive – without being submissive to evil – to live by THE GOLDEN RULE: “Do unto others as you would have them do unto you.”

All of which constitutes a major learning experience.

The higher the astral plane, the brighter it is, the more spiritual it is, the greater the expansion of consciousness, and the more powerful the dimension of transcendent source energy.

The Infinite Light exists inside and outside of linear time, predates the Universe and consciousness, and is what enabled consciousness to emerge in the first place. No being or personality created The Infinite Light. It is simply the only way for reality to exist.

When there is no Universe, no consciousness, and no reality, there are no limitations or constraints of linear time. With no linear time constraints, it is possible to have consciousness emerge, albeit arduously, through its own probability, with the indirect help of The Infinite Light.

This is how it all actually started.

A primordial consciousness that barely existed emerged in linear time as a primitive spirit. At first, through trial and error, that first soul slowly learned, with The Infinite Light as indirect teacher, how to expand its consciousness and embrace higher levels of transcendent source energy.

Slowly, painfully, and with great effort of will, soul evolution occurred. Over time, that growth accelerated. Eventually, the first soul became a lesser god on the eighth astral plane. To then, over more time and effort of will, to spiritually advance into becoming a Creator Goddess on the tenth astral plane. To ultimately embrace being an eleventh plane Nature Goddess who never incarnated.

Later to be referred to by the Gnostics as SOPHIA and by the Hindus as SHAKTI.

After Light-manifesting two galaxies – The Milky Way and Andromeda Galaxies (with the other galaxies being misidentified gas giants) – She purposefully, totally, and irrevocably divided up Her consciousness into 412 Billion, low level, yellow-energy, fourth astral plane spirits.

This is the origin of all souls.

After The Great Division of The Intelligent Designer: individual, common spirits found that they were not expanded enough, not powerful enough in The Infinite Light, to manifest even minor telekinesis and energy healing. However, it was eventually learned that when thousands, rarely millions, of fourth astral plane, yellow-energy spirits combine their consciousness into a “gestalt” (a gestalt is a whole that is greater than the sum of its parts) or discarnate collective or group entity: they can manifest energy healing and minor feats of telekinesis.

This is how all the major and many minor religions started. From the telepathic and telekinetic influence of yellow-energy group entities who desired to be worshiped as GOD. Moreover, there has been archeological evidence that points to the idea that high-tech Reptilian-aliens at first, then also giant hybrid humans with alien DNA, most of which were not principled but self-serving and earthy, posed as gods to humans in the distant past. Fortunately, those intelligent yet generally spiritually indifferent aliens who posed as gods all died out and couldn’t create upscale bodies with The Infinite Light to come back and continue their rule because they never evolved into lesser god realization.

The following is a seven-thousand-year-old artifact, depicting a Reptilian humanoid, found in Iraq in the early 1900s. This points to the Reptilians being the Anunnaki that were worshiped in ancient Sumeria.

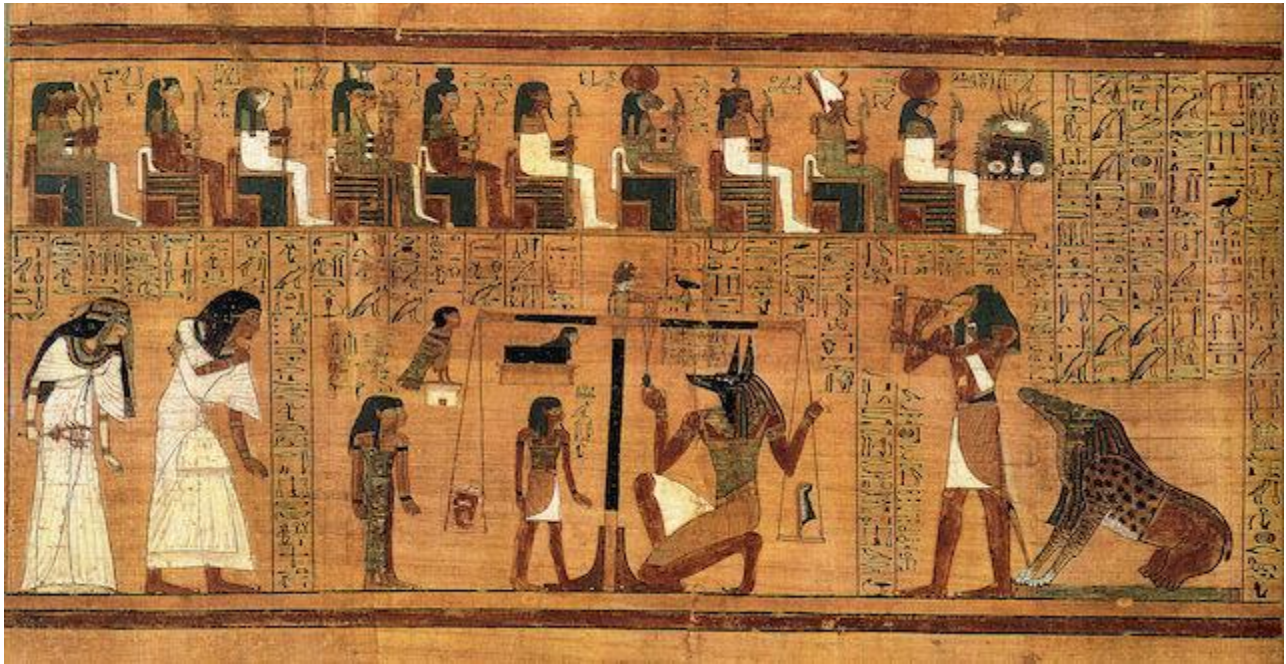

[The Ancient Ubaid Reptilians](#)

[Ancient Books Address Reptilians](#)

[Black Woman Kills A Reptilian In The South In The 1950s](#)

Ancient Egyptian art depicted royalty as not only gods but also as giants or Nephilim (biblical term):

Giants Emerging Everywhere - They Can't Hide This

It was SOPHIA'S desire for many of Her fragments or fractals to someday evolve into at least lesser gods on the eighth astral plane. She knew that this would take a very long time to unfold.

There is a direct correlation between the ability to generate feelings of purified love and compassion, and the ability to expand one's consciousness in The Infinite Light after death. Corroborated by near-death experience (NDE) research. The radiance of purified love is the key. But one can evolve much faster using COMPASSION RADIANCE regularly in a humanoid body than one can as radiant disembodied consciousness.

Her long-term plan is slowly being realized now from many using Her approach to spiritually evolve, gleaned from the Universal Memory of ALL THAT IS in The Infinite Light or the Akashic Records on the seventh astral plane, and which has come to be called Heart Chakra Radiance (HCR).

However, the story doesn't end there!

Sages in ancient India and present-day quantum physics both address the idea that there are an infinite number of parallel Universes to this, the Source Timeline Universe.

[Ancient Indian Sages Knew Of The Multiverse & An Endless Number Of Intelligent Designers](#)

[Experiment That Proves The Existence Of Parallel Universes](#)

The ramifications of this are staggering!

Now let's address time travel...

Einsteinian physics teaches us that no object of matter can be made to go at the speed of light, and that at the speed of light all matter is destroyed by turning into light. Which means that if a spaceship did manage to achieve light speed, the craft and the crew would be destroyed. Time travel requires speeds greater than that of light or faster-than-light (FTL). Thus, from the vantage point of physical time travel, it is not achievable. However, The Infinite Light allows FTL done astrally for future ascended masters on the eighth astral plane or higher in spiritual vibration!

Now let's address the high-tech aliens that many have recorded in our skies...

Their ships and probes use gravity-wave propulsion (GWP). This bends space-time and greatly shortens the duration of interstellar flight. But technically, that isn't FTL or warp drive. Which means that the aliens can't time travel. At the end of the Second World War, after atomic bombs were dropped on Japan in 1945, there was a large UFO flap over US military installations. Subsequent abductees reported that the Zetan-Greys, the most commonly reported alien, expressed that they vehemently oppose our nuclear weapons development. If the Reticulan-alien take what they want without asking, then why didn't they simply time travel back to the early 1940s and thwart The Manhattan Project to develop the first atomic bomb in modern times? They didn't simply because they don't have that capability, not because they didn't want to do so!

Once lesser gods who can Light-manifest their own idyllic bodies and Creator Gods who can Light-manifest their own idyllic planets, emerge in The Infinite Light: it will also be possible for ascended masters to astrally venture into the endless number of Parallel Timeline Universes via time travel.

SHAKTI or SOPHIA is lost to us forever. We cannot time travel into the past in the Source Timeline Universe. As such, there will never be the issue of time paradoxes that break the consistency of the Universe. Those who attempt to change their own past will find that their consciousness shrinks out of lesser god realization and out of the eighth astral plane; to lose their time travel capability. The Infinite Light will not allow us to alter our own past. Nor can we venture into a future that has yet to exist. Why SOPHIA never visited us in the Source Timeline Universe. From Her perspective billions of years ago, before Her Great Division, we are only a possible future, and one cannot enter a possible future, only a realized future.

However, once a Parallel Timeline Universe is visited, it is possible and plausible to seek out that Intelligent Designer, that SOPHIA, in the distant past. In doing so, creating a pathway for Her to enter our Source Timeline Universe. An Intelligent Designer in a Parallel Timeline Universe is referred to as a Celestial Nature Goddess.

By definition, Celestial Nature Goddesses can Light-manifest galaxies! Because of this, they will be able to produce far greater miracles of energy healing and telekinesis than anything found in any major religion in the past or present. Thereby completely changing the fabric of all theological thought everywhere!

This cosmic unfoldment will constitute the predicted and long-awaited PARADIGM SHIFT. Whereby the basic human condition will deeply improve for those who embrace the highest spiritual path of Heart Chakra Radiance (HCR).

Celestial Nature Goddesses will not desire to be worshiped. Only groups of inferior spirits push the “On Bended Knee” nonsense. Instead, they will want to feel GRATITUDE RADIANCE for their rarefied energies of healing and telekinesis, in service to others.

This will result in the total end of all worship religions.

The most spiritual facets of humanity will be able to do much more in the long run than just colonize other planets - like Elon Musk plans to do, starting with Mars!

The massive potential for changing Parallel Timeline Universes for the better points to the true purpose of the Source Timeline Universe. To be the place of widespread struggle and difficulty, and above all, LEARNING and GROWTH. Where we experience all the ills of society: the biological and environmental pitfalls, the financial instability and poverty, the corruption, the violence, the moral decay that leads to wokism and communism or totalitarian states, the slow working chemical poisons that we take into our bodies, as well as the nutritional, biological, political, and environmental solutions to all of the above.

So ultimately, once we have fully ascended in The Infinite Light, we can then time travel into the distant past.

In doing so...

PLANT THE SEEDS OF FAR GREATER, SPIRITUALLY BASED CIVILIZATIONS THAN EVER BEFORE!

AND THEREBY DEEPLY IMPROVE THE MULTIVERSE!

ADDENDUM FOR 8-20-26 (Revised 8-27-26):

Just today, right after I was given from Spirit that the number of Celestial Nature Goddesses that I should bring here after my ascension, should be TWELVE, and the [Glossary page](#) was revised, I was guided to watch the following video that was uploaded on 8-16-26: [Native American Prophecy About Albino Deer](#).

I then posted a commentary on YouTube:

I am a mental medium and a seasoned alien researcher of many years. Killing the albino deer won't change the probable future but they should be left alone.

There are Reptilian and Mantis-alien, antimatter reactor powered, illuminated, large cities deep below us that have their worker class Greys kidnap thousands of humans annually; to use humans as livestock, for medical experiments, for breeding, and as slaves.

Only advanced telekinesis or GodCraft - more powerful than witchcraft (e.g., shaman magic), sorcery (e.g., David Blaine, Dynamo, and Xavier Mortimer), and prophet magic (e.g., Yeshua and Sai Baba at their zenith) - can stop the high tech, imperialistic, spiritually retarded, and self-serving aliens.

The "twelve feathers from the sky" is a direct reference to twelve Intelligent Designers (Celestial Nature Goddesses) from parallel Universes (extremely powerful with GodCraft, they can Light-manifest galaxies!) that have been predicted to emerge for years after the first Heart Chakra Radiance Adepts transition and ascend or expand their consciousness to the as of yet unattained eighth astral plane - enabling time travel into parallel Universes and created pathways for Celestial Goddesses to enter our space-time continuum.

Our own Intelligent Designer on the eleventh astral plane is long gone, as She willfully, totally, and irrevocably divided up Her consciousness into 412 Billion, low level, fourth astral plane, yellow-energy spirits. The origin of souls.

We cannot change the source timeline, our own past. The nonliving higher power, The Infinite Light, won't allow it. Those that attempt it will retrogress to the seventh astral plane and lose their time travel capability.

The point about "humanity will finally see the heartbeat of the Earth" is a reference to TOTAL OPEN DISCLOSURE about aliens, human history being greatly revised, and the multidimensional and multiverse nature of God explained completely.

As of 8-27-26, due to the probability of a large space battle, in defense against The Reticulan Empire, the latest higher awareness indicates that the prophecy about twelve Celestial Goddesses was valid decades ago but that since then that number has been raised to two-hundred and three.
